David V. Barbour

David Barbour, recently moved here from San Francisco. He is a donor to *Atheist* organizations and speaker at *Atheist* events and attends radical political protests even in foreign countries.

David Barbour believes that because of global warming, depleted fossil fuels, unemployment and draught, we need his so-called "new" ideas. His ideas include:

- A system of multiple street cars (Estimated cost could be \$1 Billion)
- Expansion of publicly-funded internet access (Could cost Millions of Dollars)
- Government Run Health Care (Not a local issue)
- Member of anti-military peace organizations (supports closing military bases and labs)

**What would we have to give up to support these programs?**

*"We Can't Afford David Barbour"*

*Councilor Harris has kept his promises to us and more - He has been a tireless advocate for District 9 in city government.*

*Among many other accomplishments, Don has...*

Don Harris

- **INCREASED THE NUMBER OF POLICE OFFICERS ON THE STREET.**
- **RENOVATED PARKS.**
- **EXPANDED RAPID RIDE.**
- **REVITALIZED EAST CENTRAL.**
- **ALWAYS A RELIABLE FRIEND OF KIRTLAND AIR FORCE BASE AND SANDIA LABS.**

**Proudly Endorsed by Police Officers, Fire Fighters and AFSCME**

***"Vote for Don Harris on October 6"***
