

# WORKING AMERICA

## HEALTH CARE RALLY

### HEALTH CARE WE ALL CAN COUNT ON

At Working America, we know that our strength is in numbers. **Join with fellow Working America members, our friends, family and community members to hear from local leaders about the fight for good jobs, a just economy and health care we all can count on.**

Health care is an issue that affects us all. Largely because of rising costs, 47 million people in this wealthy and powerful country—including 8.7 million children—have no health coverage at all.

More than one-third of people who have insurance worry about losing it. Meanwhile, insurance and drug companies are making stunning profits. Health insurance CEOs averaged \$8.7 million in 2006 compensation, and pharmaceutical company CEOs pulled down an average of \$4.4 million.

Featured speakers will be helping us to build our strength by signing up Working America members in their communities.

Please join us to hear from key leaders about the fight for quality, affordable health care for all.

#### KEYNOTE SPEAKER

Lt. Gov. Diane Denish

#### WHAT

Working America Rally
